- a) Acquisition and development of relevant social and civic competences by the involved project beneficiaries (migrants and/or refugees), promoting and strengthening their social cohesion, the right of active citizenship and respect of human rights;
- b) Acquisition/strengthening of methodological and intervention tools by professionals working with migrants and/or refugees for undertaking with them an itinerary focused on orientation, assessment of competences, self-evaluation and empowerment;
- c) Exchange of good practices among partner organizations in order to increase their knowledge and competences, and acquire new methodologies.

### The following target audience will be reached:
